Jubilee USA Network is an alliance of more than 750 national, local and international faith communities and partners working to build an inclusive global economy—an economy that serves, protects and promotes the participation of the most vulnerable.

WHO WE ARE:

We are people of faith working to change the policies that drive extreme poverty and inequality. We represent a broad range of religious and political perspectives united in our commitment to defend the poor.

We have won critical global financial reforms and more than \$130 billion in debt relief for the world's most vulnerable people.

WHAT WE DO:

We advance responsible bipartisan reforms of the national and international financial system that protect people living in poverty by working with the White House, Congress, G7, United Nations, World Bank, and International Monetary Fund.

We lift up issues that speak to shared values of Republicans, Democrats and people of all faiths.

OUR VISION:

The Jubilee vision is articulated in the Christian, Jewish and Muslim scriptures. The term Jubilee comes from a law in the Hebrew scriptures that every fifty years during the Jubilee Year all debts were canceled, land was returned, and people were freed from all types of bondage. Jesus began his ministry calling for the great Jubilee year, or the "Year of the Lord's Favor."

We are making the Jubilee vision a reality as we educate our partners, political leaders and neighbors about the detrimental effects of vulture funds, unfair debt, misleading payday lenders, tax evasion and corruption, anonymous shell companies, and other issues affecting the poor.

We work to restore right relationships between communities, peoples and nations.
